## 🧠 Skills

Javascript • React.js • Redux • Next.js • Node.js • Express.js • MongoDB • DynamoDB  
AWS Lambda • React Native • Git • HTML • CSS • Tailwindcss • Material-UI

## 📁 Professional Experience

### (C3 - Caring Code Creation), Full-stack Developer 🌐 01/2024 - present

- Design and development of a full-stack POS web application utilizing the MERN stack (MongoDB, Express, React, Node.js) for efficient inventory management and streamlined checkout processes.
- Implemented unit tests and rigorous code reviews to guarantee code quality and long-term maintainability.
- Established a robust Continuous Integration/Deployment (CI/CD) pipeline, leveraging pull requests and code reviews, while consistently optimizing application performance.
- Utilized Git and GitLab for version control and adhered to Agile development methodologies throughout the entire process, ensuring efficient collaboration and iterative delivery.

### (Tunyat), Full-stack Developer 🌐 06/2023 - 01/2024

- Designed and implemented highly scalable APIs that power multiple applications, leveraging Node.js, Express.js, and MongoDB.
- Developed a unique Rewarding Fund Management System that empowers farmers with access to essential financial resources and necessary supplies at competitive rates. Built using cutting-edge technologies like React, Redux, Node.js, Express.js, and MongoDB, the system is designed for scalability, efficiency, and user-friendliness.
- Collaborate closely with agronomists and stakeholders to understand requirements, translating them into scalable and user-friendly features.
- Mentored junior developers and provided technical support as needed
- Implemented unit tests and performed code reviews to ensure code quality and maintainability.
- Continuous Integration/Deployment Pipeline, pull requests, code reviews and optimize application performance
- Used Git and Gitlab for version control and followed Agile methodologies throughout the development process.

### (Myanmar Digital It Solution)

#### Mid-Level Developer 01/2022 - 05/2023

- Developed, implemented and modified 4+ web apps and mobile applications.
- Worked on multiple projects using the MERN stack and delivered them on time..
- Worked closely with the team to implement new features and improve application performance.
- Developed and implemented backend logic using Aws Lambda, Node.js, expressjs and MongoDB.
- Mentored junior developers and provided technical support as needed
- Implemented unit tests and performed code reviews to ensure code quality and maintainability.
- Used Git and Gitlab for version control and followed Agile methodologies throughout the development process.

#### Junior Developer 06/2020 - 12/2021

- Developed, implemented, and modified 3+ web apps and mobile applications.
- Assisted senior developers in building backend components using Node.js and Express.js.

- Collaborated with the team to design and implement RESTful APIs for data exchange between frontend and backend.
- Developed database schemas and wrote efficient queries for data retrieval and storage.

#### Intern, (Global Wave Technology) [↗](#)

12/2019 – 02/2020

- Developed a website using .NET Core, C#, JQuery, HTML, Javascript, Angular and Bootstrap.
- Designed dynamic pages using HTML, Css, JQuery, Javascript and Augular js
- Used Angular js components like modules, controllers, and build-in models with single page Applications

### Personal Projects

#### K-Kanban [↗](#)

Developed a fully responsive Kanban app with drag-and-drop functionality using the MERN stack and Material-UI.

#### MERN-Auth-App [↗](#)

Built an authentication app with OTP verification, JWT token authentication, and password reset functionality.

#### K-Movies [↗](#)

Developed a responsive movie website with user authentication and favorite movie list functionality.

#### crypto-track-app [↗](#)

Created a crypto screener app using React and Tailwind CSS with data from the Coingecko API.

#### rhyme4U [↗](#)

Designed a music player app using React and the Shazam Core API.

### Education

#### Bachelor of Art(Myanmar), East Yangon University

2016 – 2019 | Yangon, Myanmar

### Certificates

- CS50x [↗](#)
- Advance React By Meta [↗](#)
- Front-End Web UI Frameworks and Tools: Bootstrap 4 [↗](#)
- Front-End Web Development with React [↗](#)
- Server-side Development with NodeJS, Express and MongoDB [↗](#)
- Introduction to Mobile Development By Meata [↗](#)
